Respectable Sir

I humbly beg leave to state that the Expences incurred on account of Incense Candles &c. &c. for the Church in Devigam Amounts to 120 Chs. Yearly, and as this fund which has hitherto been realized is discontinued from the distressed state of the Inhabitants I beg you will be pleased to allow a sufficient extent of Land at Maaneom from the waste land in Coothamarathoopatty Village, dependant on the Toddycombo Division, so that the Expences be continued to be supported a small space of Ground to the extent of 25 Cubits broad for the procession to go round the Church.

The rent of Charity will never be effaced from the Memory of the Christian

Circular

From the Supt.
of Indn Affairs
Dated 11th Octr
1817

Extract of a Letter from the Inspector of Tank Estimates, to the President & Members of the Board of Revenue dated 12th Sept. 1817

The proportion of Jaghery to Chunam in the execution of all first rate wall work at the Presidency, is one Pound of Jaghery to one Parah of Chunam, and in Arch work where great Strength is to be ensured, one and half pounds of Jaghery to one Parah of Chunam —

In reference to the question of proportioning Jaghery, I beg further to remark, that what is above stated, relates to the general application of the materials; cases may occur when from unexpected accidents of Rivers, or the presence of heavy rains, it may be necessary to run Works up under circumstances highly unfavorable, and almost in a flooded state; instances of this class demand that a latitude should be given towards a more abundant application of the article, which Collectors may be advised to notice, in their Progress reports, and also in their Bills, with a view towards accounting for the excess of expenditure beyound the original Estimate, when the final accounts pass the review of the

Board; a circular notification to this effect to all Collectors would I think be highly advisable, which I am disposed to recommend in preference to any augmentation of the Data appropriated for general purposes, at that may if apprehend hold out temptation to imposition and fraud, on the part of the minor Servants employed upon the Superintendence and execution of Works in general.
